Isle of Wight LINks

Your voice on local health and social care

Your Health – Your Care

Your local LINk wants to know about your experience of health and social care on the Island so that we can raise the issues that are important to you with the people that plan and provide services. To get you started we've listed some topics for your consideration but please feel free to make any comment you wish. Your voice can make a change.

Some Examples:

- Rural Transport - how has the availability of transport affected your access to services?
- Discharge from hospital - was this well planned, did you feel ready to leave?
- Accident and Emergency - how long did you have to wait? Were you satisfied with the service?
- Medical assessment for benefits - have you had any problems?
- Standards of care for those with a mental health need – do you think this could be improved, if so, how?
- Have you had any difficulties with hearing aid services?
- NHS dental care – are you happy with the dental care you and your family receive from the NHS? Have you had any difficulties in obtaining the service?

Whatever you want to say, make a change, say it now!

All information you provide will be held securely in the strictest confidence and no other agency or organisation will have access to it. The information will be used exclusively by the Isle of Wight LINk to identify Islanders' experience of health and social care services and will enable the LINk to report these findings to commissioners and providers of social and health care services.
